

# ENVIRONMENTALLY-SEALED TOGGLE SWITCHES

## T-BAR ENVIRONMENTALLY-SEALED MULTI-POLE SWITCHES

offers contact protection against corrosive atmospheres, splashing water, sand, dust, and salt spray. This T-Bar style has the identical switching, operations and reliability you will see in standard T-Bar Switchers because the same quality wafers and actuators are used throughout. The metal enclosures and contacts are protected with a premium epoxy seal as well as backfilled with inert gas for ground support or shipboard applications and in other various hostile environments. T-Bar Switches requiring continuous power, and pulse operated magnetic latching switches, can be environmentally sealed. Imagine 96 circuits protected in a space as small as 2-5/8" x 3-29/32" x 1-3/16". Our products are developed with longevity and practicality in mind. Don't forget our terminals are also designed to accept T-Bar Connectors.

### SPECIFICATIONS:

- **SEAL TYPE:** Environmental
- **# OF POLES:** 12, 24, 36, 48, 52 and 60 pole configurations.
- **TYPE OF CONTACTS:** 800 Series (5 Amp) or 900 Series (1 Amp)
- **PROTECTED** against normal ambient dust conditions.
- **96 CIRCUITS ARE SWITCHED IN A SPACE** as small as 2-5/8" x 3-29/32" x 1-3/16".
- **SIMPLE CRIMP SNAP-IN CONTACTS** fit into single block connectors for easy wiring.
